

ACCREDITATION & CERTIFICATION

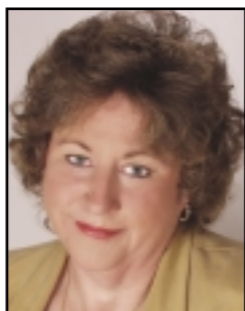

One of our best references is having the state and accrediting personnel acknowledge the ease of our clients

accreditation and certification when our team is facilitating the process. Whether it is your Ambulatory Surgical Center, outpatient practice, mental health and substance abuse center or your Physicians Office Laboratory seeking AAAHC, CLIA, COLA, Medicare or JCOHA, we are experienced in expediting the process. Once completed, we can provide the risk management services needed to maintain compliance to all the relevant standards.

DOCUMENTATION & REIMBURSEMENT

We work with health care professionals to improve their documentation and provide a safe environment to practice their profession. Our documentation/reimbursement services ensures that clinical documentation reflects appropriate severity and complexity through the application of regulatory guidelines and documentation techniques. This service can be provided by on site training or through off site tools we have developed.

Kathryn I. Moghadas, CHBC, CPC, CHCC, CLHRM, and RN

Kathryn I. Moghadas, CHBC, CPC, CHCC, CLHRM, and RN

Kathryn Moghadas is President and Founder of Associated Healthcare Advisors, established in 1985. Kathryn has gained a national reputation in

Medical Management and Compliance Consulting. She is nationally certified in the areas of Healthcare Business Management, Professional Coding, Compliance, Risk Management, and Nursing. Kathryn is recognized as an expert consultant and IRO (Independent Review Organization) to the healthcare community.

Kathryn has been a contributing author and editor to many compliance and medical resources. She wrote "Managing Professional Liability Risk" (1992) and "Healthcare Compliance in the Medical Office" (2000) for Charles Wold's annually updated encyclopedia, "Managing your Medical Practice."

In March of 2005, through the AMA Press, Kathryn Moghadas wrote the definitive guide and Physician Owners' Manual, "Medical Practice Policy and Procedure."

Kathryn is a contributing editor to several medical management magazines such as "Medical Economics," "AAFP," "Physician's Compliance" and "AMA News." She lectures at national medical conferences and medical associations and also provides training and Continuing Education Units to national, regional and local entities.

PRACTICE PROFITABILITY REVIEWS

The comprehensive Practice Profitability Review covers both current and historical operations using on site analysis, observations, interviews, and review of records.

The Practice Profitability Review can be separated into: Operational Assessment and Financial Profitability Review.

The operational assessment is designed to assess how your general office and daily business systems impact the bottom line. The time and personnel investment of operations, known as indirect costs, will cost your company money.

Essential functions may include: Appointment Scheduling and Communications, Billing and Collection, Employee Skill Set Analysis, Medical Records Accuracy and trends, Patient Relations/Marketing, Quality Assurance, Facility Layout, Technology/Computer Review and Managed Care Contract Review.

The financial profitability review looks at those specific elements that have direct reimbursement or financial value associated with them. This review focuses on services and fees, cash flow and the controls of those items to verify accuracy of profits and expenses.

REGULATORY COMPLIANCE & AUDITS

Our Healthcare Compliance Services Program assists you in reducing your professional liability. As the healthcare industry changes, the need is greater now than ever to have a proactive compliance program in place. We establish the team and provide the direction to move you through the regulatory maze.

We can provide compliance programs and resources to assess and prevent potential liability. In the current environment of recoupement and fraud investigations by the Office of Inspector General, internal compliance programs are essential to reduce your risk. to accompany you home.
